

A photograph of a modern building's exterior. On the left, a white wall features a window with a dark grey roller blind partially rolled down, revealing light-colored curtains. Above the window is a dark horizontal architectural element. To the right, a balcony with a light-colored wooden slat railing is visible. A flower box filled with pink flowers sits on the balcony. The building has a dark roof with wooden eaves. The overall style is clean and contemporary.

- External roller shutter IDEAL with ALU cabinet, closed on all sides. The shaft is galvanized and mounted on aluminium end cap with ball bearings. Guiderails are aesthetically finished with plastic ends and fixed brushes for quieter operation. Weighted end slats made from aluminium. Roll-up mosquito net including the brake for easier lifting.

WARNING: Certain colours on the chart may vary from original!

ALU slats are filled with insulation - polyurethane foam, standard fitted with anti-theft springs. Machine slat binding ensures a quieter and more reliable operation.

WARNING: Certain colours on the chart may vary from original!

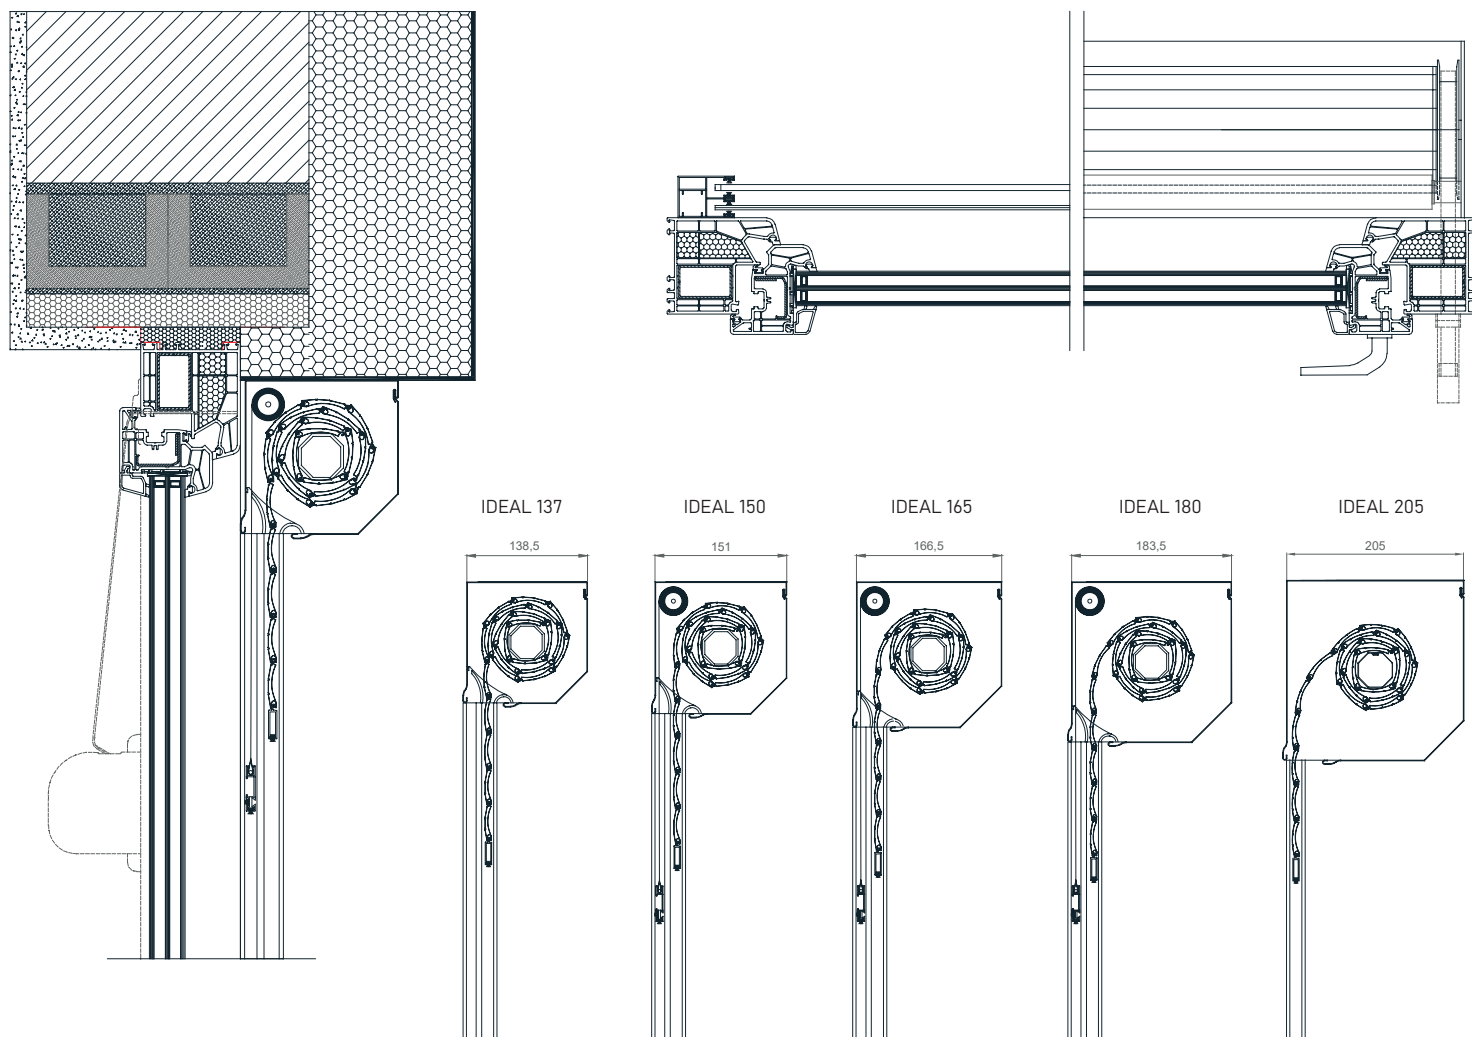

Manipulation is possible with automaton or electrical motor. For motor operation there is the standard PLUG & PLAY function, which allows the connection of several motors to a single switch, self-adjusting positions and the safety function in the event of an obstacle.
